About Me

A third-year Software Development student at Norton University, currently looking for opportunities to improve my development skills and gain real-world experience. I consider myself a hard-working and fast-learning person.

Skills

- Web Application Development
- Cybersecurity Basics
- Database Design
- Research & Self-learning
- Mobile App Development Basics
- System Analysis & Design
- RESTful API Development Basics (ASP.NET Core)
- Unity Game Development Basics

Programming Languages & Tools

- C# & ASP.NET Core
- HTML/CSS/JavaScript & Bootstrap
- Python & Flask
- Dart & Flutter
- C++
- Java
- SQL Server & Oracle
- Git & GitHub

Languages

Khmer

English

Experience

Data Collection Intern

Sep, 2025 - Dec, 2025

APS Cambodia, Phnom Penh

Researched and collected data to support BI analysis, assisted the Green Net project with field data collection, and conducted on-site visits to major malls in Phnom Penh for plan stacking and operational data, while organizing and maintaining the collected information for analysis.

Accomplishment of Software Development

Nine Cafe Management System

C#, ASP.NET Core & SQL Server

Developed the web application system, which records daily sales, tracks expenses, and generates detailed reports.

Nine Cafe Product API

C#, ASP.NET Core, RESTful API & Swagger

Developed a RESTful API using ASP.NET Core and SQL Server with full CRUD functionality for product and pricing management.

Education
